THE CALF COMPANY

Caring for the next generation!

SCAN ME

OPTIMUM CLIMATE CALF BARN (OCCB)

OCCB

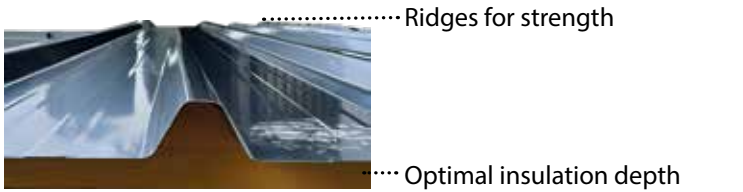

A unique insulated housing system, allowing calves to be reared in social groups of 6-10 up to 12 weeks of age in their own microenvironment.

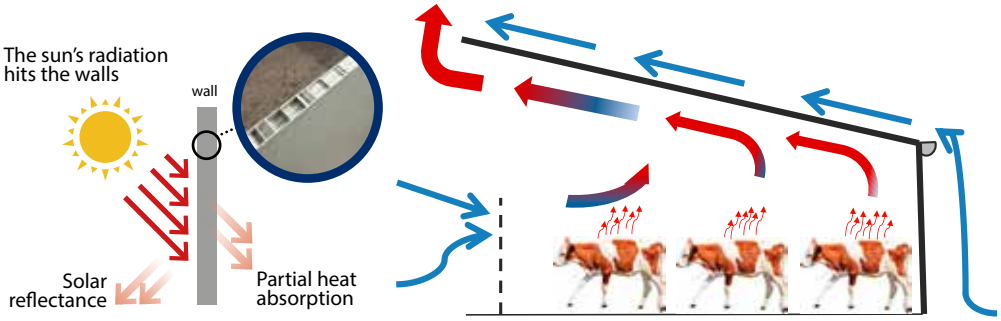

This promotes healthy calf growth due to no shared air space between neighbouring groups.

- Fully galvanised opening gate.
- Hook on feeding trough.
- 10 teat milk bar – 1 per unit.
- Nose fill drinking bowls.
- Rear gutter.
- Quick release access door.
- Numbered pen signs.
- Walls resistant to ammonia & UV rays.
- Front gates easily removed for mucking out.
- 3m wide x 5m deep.

OPTIMUM CLIMATE CALF BARN (OCCB)

SCAN ME

"Buying my OCCBs was probably some of the best money I've spent in dairy farming in a while. I have been able to stop vaccinating calves and have had virtually no illness.

It takes about two thirds of the time to feed the calves with each pen having its own feeder – there is no cross contamination. The pens are very easy to clean between batches and still look like new when cleaned – I would not hesitate to recommend The Calf Company (who are a very helpful family run company) OCCB to anyone rearing calves. They make me smile every morning I go out to feed them!!"

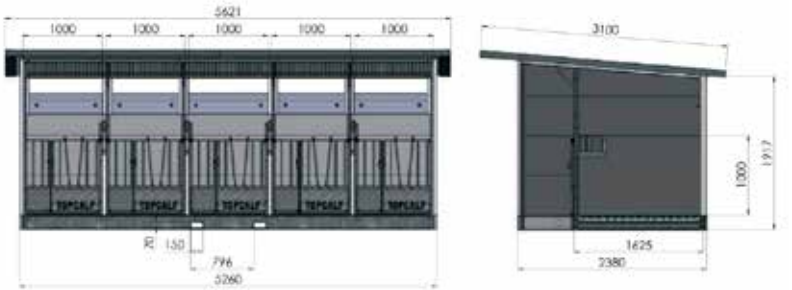

Hannah Freeston – Swindon, Wiltshire.

TOPCALF MOBILE HOUSING UNIT (MHU)

Mobile Housing Unit (MHU)

MHU is the perfect solution for calves up to 16 weeks old. This calf housing solution stimulates social interaction between calves. The MHU can house 4 to 6 calves and can optionally be equipped with a sliding door and an outdoor pen. The MHU has an insulated roof and walls keeping the calves at the optimum temperature.

- Robust galvanised construction.
- Solid, plastic panels.
- Plastic slatted floor.
- Standard with palisade feed fence (optional Holme & Laue feed fence).
- Feeding trough & water bowl.
- The roof consists of insulated sandwich panels.
- Sliding air vents.
- Equipped with lighting & electricity.
- Forklifts pockets.
- Optional sliding door & outdoor pen.

TOPCALF TRIO XL PENS

SCAN ME

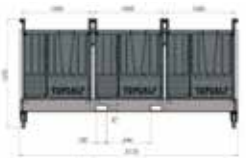

Topcalf Trio XL Pens

Trio XL pen without roof is a larger mobile calf pen for three calves, ideal for indoor calf housing. This calf pen has a sturdy frame with four caster wheels which makes it easy to move. In addition, the calf pen can be lifted at the front and back with a forklift.

- Seamless plastic walls help prevent worm and fly egg buildup.
- Smooth plastic surfaces make cleaning easy.
- Easy to move with swivel wheels and fork sleeves.
- Removable partitions to create a group.
- Two-part front gate allows access without disturbing feeding.
- Removable plastic slatted floors.
- Includes locking yoke, feed bowls, and teat buckets.
- Double bucket and teat feeder brackets included.

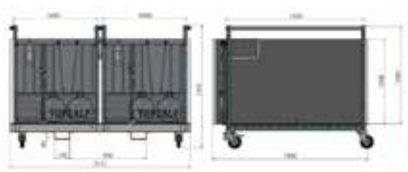

SCAN ME

TOPCALF DUO XL & XXL EASY CLEAN PENS

Topcalf Duo

Duo XL & XXL Easy Clean pens can accommodate two calves. Like all Topcalf pens, the Duo is equipped with two-part fronts allowing access to the calf without disturbing the calf drinking. In this calf pen, calves rest on a plastic slatted floor keeping them off cold or wet surfaces.

- Easy to move with swivel wheels and fork sleeves.
- Two-part front gate, allows access to calf pen without disturbing the calf.
- Removable plastic slatted floor.
- Feeding bowl with tiltable holders.
- Supplied as assembly kit.
- Optional Easy Clean System available.

XXL Easy Clean

DOUBLE CALF COT ON WHEELS

SCAN ME

Double Calf Cot on Wheels

- The intermediate walls (35mm) are made of strong plastic making them very long lasting.
- The plastic walls without seams reduce the infestation of fly eggs.
- Middle wall slides out to make a double cot.
- Plastic drainage floor is removable.
- Very stable 6 swivel wheels 160 mm with parking brake.
- The plastic is very easy to clean.
- The frame and front gates are fully galvanised making them very long lasting.
- Front gate with two calf teat buckets & feed pans.

Outside per Cot
L = 2450 x W = 1100 mm

Inside per Cot:
L = 2250 x W = 1000 mm

TOPCALF MONO PENS ON WHEELS

Topcalf Mono Pens on Wheels

Mono XL is a mobile calf pen for one calf. Thanks to its castor wheels (with two brakes), the pen can be easily moved. The calf is positioned at an ideal height on a removable plastic slatted floor, ensuring the calf stays dry and is not lying on a cold, wet surface.

Like all Topcalf pens, it is equipped with a two-part front gate allowing you to enter the calf pen without disturbing the calf. The sturdy galvanised frame of this calf pen guarantees a long life span.

- Four castor wheels (two with brakes).
- Two-part front gate.
- Removable plastic, slatted floor.
- Feeding bowls and tiltable holders.
- Supplied as an assembly kit.

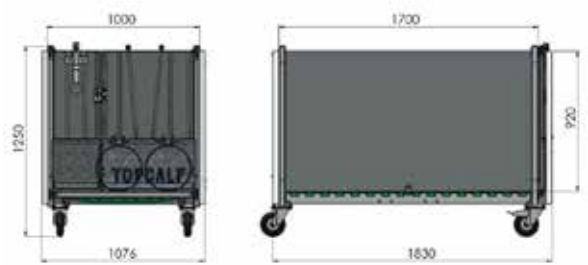

Mono First Care

Optional version with two-part side wall. After calving, the calf Pen can be placed in front of the feed fence.

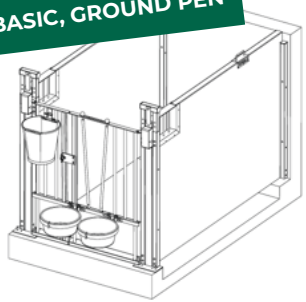

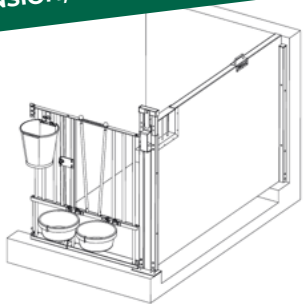

TOPCALF FIXED PENS

SCAN ME

BASIC, GROUND PEN

EXTENSION, GROUND PEN

Topcalf Fixed Pens

Partition walls are easily removable which makes it very easy to muck out and clean the calf pens. The partition walls also make it possible to create a small housing group. This way the calves can get used to living in a small group at an early stage. Partition walls are available in different lengths, heights and width, depending on the preferences and situation of the farmer.

TopCalf Fixed Calf Pen Details

Internal Dimensions:
L x W x H per pen: 1000mmx 1000mm x 1620mm
