Supplementary Products

We also have a wide range of supplementary products which are formulated to increase calf performance and assist them during periods of stress or disease challenge.

SCCL Calf Choice Total Bovine Colostrum - Supplement & Replacer

SCCL Colostrum is a natural bovine colostrum powder that is rich in colostral fat, a critical early source of energy for newborn calves. It provides a unique balance of both immunity and energy to meet the needs of your calves. SCCL Colostrum may be used to supplement or completely replace maternal colostrum and is made only from natural, premium quality bovine colostrum.

Hydrafast — Oral Electrolyte

Hydrafast is designed for use when there is a risk of digestive disturbance, during periods of digestive upset, or during recovery. Hydrafast delivers ideal sodium levels for water absorption and rehydration and provides high glucose levels for energy, and as the main co-transporter of sodium.

Bi-Pill Scour Treatment

Bi -Pill is a bicarbonate pill to help calves suffering from acidosis due to diarrhoea. Bi-Pill buffers acidosis in blood and rumen to lift pH levels.

The Calf Company Milk Replacers

We are specialist in calf rearing from birth to 12 weeks. With our focus being:

- Milk Replacers
- Calf Housing
- Calf Equipment
- Calf Supplement Products
- Calf Rearing Support

We have over 30 years' experience of managing large calf rearing units, calf health & management.

Our UFAS feed assured milk replacers have been fully tried & tested in the UK & Europe.
